

Front Range Teen Science Cafe'

Teen Science Cafe' Network

scientists & teens exploring the world

Everyday Joe's Coffee House

144 S. Mason Street | 5-7PM

Presentation begins at 5:30PM

Seeing the Earth from Space

September's Teen Science Cafe will feature Dr. Matthew Rogers from the NOAA Cooperative Institute for Research in the Atmosphere.

Learn how scientists monitor the atmosphere and other parts of the Earth's environment using NASA and NOAA satellites. We'll explain these acronyms too! We'll talk about the principles of light, how light interacts with the environment, and how that can be used to measure our world from orbit.

Food and drinks are provided.
Please RSVP so we can plan accordingly.
